

Virginia Food for Virginia Kids is an initiative of the Virginia Department of Education, Office of School and Community Nutrition Programs (VDOE-SCNP) that provides training and support to school nutrition programs to increase scratch cooking, local procurement, and student inspired meals, while weaving in workforce development strategies.

Virginia Farm to School supports local food procurement, school gardens and student farms, and nutrition and agriculture education. The VDOE-SCNP develops resources, hosts networking opportunities, and implements programs to connect students to Virginia grown food while strengthening our regional food system.
